

Monroe Infrared is pleased to announce a working relationship with [Cliff Whitney](#) the founder and President of [UAVExperts.aero](#) and [Atlantahobby.com](#). as our **Preferred Education and Equipment Provider for our sUAV Program.**

[AtlantaHobby.com](#), along with sister/ partner companies [UAVExperts.aero](#) and [UAVGroundschool.com](#) are the nation's leader in UAV operations and training for flight operations. Companies from around the country such as Fox News, Cox Media, CBS, Ally Insurance, as well as real estate agents, both police and fire departments, and other countless individuals have enrolled in our various programs. They have experienced first-hand the benefits of our comprehensive flight training and professional development.

## We offer two distinct programs:

### 1. Hands-On UAV Classroom and Flight Training (2 Full Days)

There's nothing better than getting your hands on the latest UAV equipment and learning to fly with an expert. Our two-day program features small classes, limited to only 12 students per class. We offer extensive hands-on flight training with ample classroom time, giving students a better understanding of the various flight, software, and hardware systems. Our curriculum is extensive and includes all equipment.

#### Pre Planning Your Flight:

- Location Checklist
- Flight Logs
- Privacy Considerations
- Micro Meteorology
- Hazardous Obstacles
- Applications for solar /Weather
- Recreational vs Commercial
- Emergency Procedures
- Crew Resource Management

#### FAA and Airspace Considerations

- Airspace Basics:
- TFRs & Flight Restrictions
- Identifying Restricted Areas
- Aps to help

#### Equipment and Use:

- Battery Technology
- Aircraft Components
- Calibrations
- Cameras and Gimbals
- Controller Settings

#### Gain and Expo Tuning

- Use of Lights

#### Flying:

- Precision Flying
- Camera operation
- Single & Dual Operations

#### Flight Modes:

- Course Lock
- Home Lock
- Point of Interest
- Follow Me
- Way Points
- Failsafe Settings
- Return to Home

#### Other:

- Firmware Updates
- Staying out of the news
- Avoiding Fly Aways
- Avoiding Disorientation
- Insurance
- Fun with Music

If you have not yet participated in our hands-on program then you are missing out. Our facility is second to none. There is something about the atmosphere of people learning and sharing their knowledge that is just fantastic. You're going to pick up a lot of tips on filming, flying, FAA and legal issues, and even running a UAV-based business efficiently.

## 2. Gold Seal UAV Ground School

This program is taught by FAA certified instructors, using FAA compliant materials in an online, interactive, multimedia format allowing you to learn at your own pace.

Built-in testing, with real FAA test questions, an extensive documentation library, and flash card quizzes complement the program. The UAV Groundschool.com program was created specifically for those wanting to increase their knowledge, pass the FAA Part 107 Remote Pilot written test and become a professional UAV/ drone operator with full FAA certification.

UAV Ground School graduates may sit for the FAA Remote Operator Knowledge Test at any FAA testing center in the United States. Passing the FAA Knowledge Test and becoming a safe and legal operator gives graduates a major leg up as commercial UAV uses explode.
